

The mission of the Annandale Police Department is to provide quality police service to our community by promoting meaningful police/citizen interaction and community partnerships, with emphasis on public education, problem solving and actively responding to community concerns. We commit to the values of integrity, impartiality, and professionalism in the performance of our duties.

We believe that serving our community requires open communications between all of our staff and those we serve. Prompt responses to resident's concerns can often address major issues before they become community wide problems. A collaborative approach is in the best interest of all, so please feel free to contact us at any time, no matter how insignificant a problem may seem.
